

Subject: Incident 7/29/23 White deer rodeo

On 7/29/23 at approximately 11:40 PM, I was involved in an incident that took place at the White Deer Rodeo in White Deer, Texas. I was notified by an individual that a 15 year old girl who was apparently anemic, was having seizures near the stage during the concert. While going towards the scene, I advised Carson County Deputy to notify EMS. Once the patient was located, two individuals arrived to help. Carson County had a EMT off duty coming to help as well. Two females that had arrived, claimed they were nurses and one male claimed that he was an ER Doctor. Shortly thereafter, EMS arrived on scene and began making their way through the crowd of several thousand people. At this time, the nurses, the doctor and EMT crew began arguing over putting something in the mouth of patient. The EMT crew requested that all individuals to get back and to quit trying to put something in the girls mouth. The nurses and doctor did not adhere to the request, therefore, I directed the individuals to get back for EMS to take charge. The doctor raised his voice claiming he was a doctor and would not listen to my command. I raised my voice in return and directed him to get back. The doctor then became agitated and state he would F me up. Deputy Colten Daniels and Deputy China Elizande-Alexander from Carson County Sheriff's Office, restrained the Doctor from coming towards me as he attempted to do so. Deputy Daniels and Deputy Alexander escorted the individual out of the area where he was released. The doctor then claimed he was Ronnie Jackson and continued to MF me. Ronnie Jackson requested an apology and I gave him an apology, however, I explained to him that when EMS is on scene and multiple individuals are telling you to get back, then move. Ronnie Jackson continued to state his career to me and advised that he would be contacting Governor Abbott. While Mr. Jackson was leaving the area, he continued to MF me as he was leaving. I believe Ronnie Jackson had been drinking due to his belligerent actions. A lady approached me shortly after, who is believed was Mr. Jackson's assistant, and asked for my name and badge number to which I provided. The patient was taken by EMS for treatment at a local hospital.

Respectfully,

Cade Young
